

Home Staging by Lindsay Duff

There are many benefits to staging homes: Staged homes sell faster, and the costs of staging are generally recovered by the proceeds of the sale. It is a competitive market - catch potential buyers' attention with a beautifully staged home. I will help create an clutter-free, spacious-looking home that will be attractive to buyers.

To help agents and brokers get started with the Assured Pre-Owned Home Program, I am offering a special discount: 1 Hour Consultation for \$250.

In a consultation I will look at the property and take photos. We will determine whether to use the home-owner's current furnishings or rent furniture. After the consultation, when you decide to use the home staging services I offer, then I will give you a quote. I will create - and help you implement - a beautiful design for the layout of the home.
